## \*\*\*\*\* EDITOR'S Report \*\*\*\*\*

The reorganization into subgroups seems to be on track. The AMG group is particularly active (an entry for every bulletin has been promised), and the "Miscellaneous" group is coming up with some entries. If any of you have material to submit please contact the appropriate subgroup editor. Remember, the offer to print wantlists; material for sale, etc. is still open to anyone wishing to use it.

I am in the process of making new heading pages to include subgroup information rather than the stamp pictures. This comes at a good time, because I'm running out of heading pages anyway--in fact most of you will probably have the first page of this issue printed on an ordinary sheet of paper.

Don Slawson

## \*\*\*\*\* Report of the SECRETARY/TREASURER \*\*\*\*\*

I've been working on getting our financial record and membership lists into shape. Most of you paid 1979 and 1980 dues when I requested in 1979, then it wound up we were short on issues (6 total) so I counted 79-80 as "1 year" and moved payment for 1980 up to 1981. Here is an accounting of monies I know of which were received in 1979-80:

|   |                 |
|---|-----------------|
| Transferred to me from Chuck Blunk .....            | \$698.00        |
| Paid directly to me .....                           | <u>\$105.00</u> |
| Total receipts in my hands                          | \$803.00        |
| less expenses incurred for 1979-80 (paid to editor) | <u>\$351.91</u> |
| Cash on hand, January 1981                          | \$451.09        |
| less liabilities (1982 dues paid in advance)        | <u>\$ 20.00</u> |
| Cash available for operations in 1981               | \$431.09        |

To account for this money I have established a good old-fashioned double entry accounting system (I'm taking "principles of Accounting" this year) and seem to have a handle on everything. As part of this system I've made an "Interest Form" for each member which includes a record of payment (essentially all my "interest forms" become my membership list and dues received subsidiary ledger).

I then checked Chuck's records of payment to see who had paid dues for 1980 (which now counts as 1981). For each person who had paid I entered "paid" in the 1981 payment entry (I did this because the monies on hand did not equal \$5 time the paid members--we were a bit over, probably because of low 1979-80 expenses). In the future I'll enter amounts in the payment record so my dues receipts subsidiary ledger should agree with my dues income general account. Anyway, I then sent each non-paid member his interest form with a request for payment. If these forms are not returned the member is "lost" since I sent the only copy of the interest form.

Now, for all you paid up members (if you receive this bulletin you are paid up), I am enclosing a copy of your interest form. I would appreciate you completing this form and returning it to me (I will use it to make "subgroup" interest lists to send to the various subgroup directors, etc.). However, failure to return this will not cause you to be dropped from the rolls, because as I said, the enclosure is merely a copy of the form.

Don Slawson

1946 NUMERAL SERIES BOOKLET  
=====

by Jay T. Carrigan

INTRODUCTION  
=====

The 1946 Numeral Series Booklet (Michel MH50) is well-known to collectors of post-WWII Germany. Footnotes in Michel refer to varieties of the individual booklet panes, but no mention is made of the various combinations of panes which occur in the complete booklets. Furthermore, the Michel catalog is incorrect in its description of one of the panes. The purpose of this article is to provide correct listings of the varieties of booklet panes and booklets.

BOOKLET PANES  
=====

The complete MH50 booklet consists of one each of the following two panes:

H-Blatt 123 - 12 Pf gray + 16 Pf blue-green  
H-Blatt 124 - 24 Pf orange brown

In addition to the booklet covers, the complete booklet includes two thin pink interleaves with advertising.

The booklet pane varieties are the result of various placements of the protective margin rules (designed to protect the sides of the flat plate from damage during the printing process). The following types are known to exist:

H-Blatt 123  
=====

Type A - 7 mm from stamps, gray  
Type B - 13 mm from stamps, gray  
Type C - 7 mm from stamps, blue-green  
Type D - 5-1/2 mm from stamps, blue-green

H-Blatt 124  
=====

Type X - no margin rule  
Type Y - 7 mm from stamps, orange-brown  
Type Z - 11 mm from stamps, orange-brown

TYPE A

TYPE B

TYPE C

TYPE D

TYPE X

TYPE Y

TYPE Z

COMPLETE BOOKLETS

=====

It is my belief that all possible combinations of booklet panes exist as complete booklets, although I have not personally seen all of them. Those booklets whose existence I have not verified are indicated with an asterisk (\*) in the listing below.

| MH50      | H-Blatt 123           | H-Blatt 124 |
|-----------|-----------------------|-------------|
| =====     | =====                 | =====       |
| Type 1    | A (7 mm gray)         | X (none)    |
| Type 2    | A (7 mm gray)         | Y (7 mm)    |
| Type 3    | A (7 mm gray)         | Z (11 mm)   |
| Type 4    | B (13 mm gray)        | X (none)    |
| * Type 5  | B (13 mm gray)        | Y (7 mm)    |
| Type 6    | B (13 mm gray)        | Z (11 mm)   |
| Type 7    | C (7 mm bl-green)     | X (none)    |
| Type 8    | C (7 mm bl-green)     | Y (7 mm)    |
| Type 9    | C (7 mm bl-green)     | Z (11 mm)   |
| Type 10   | D (5-1/2 mm bl-green) | X (none)    |
| Type 11   | D (5-1/2 mm bl-green) | Y (7 mm)    |
| * Type 12 | D (5-1/2 mm bl-green) | Z (11 mm)   |

The author would appreciate receiving information confirming the existence of the unverified booklets (\* in above list). If you have any of these booklets, please write to 12000 Fairfax Station Road, Fairfax Station, Va. 22039.

## \*\*\*\*\* Obliterations Subgroup \*\*\*\*\*

Some notes on the selling price of Obliteration "trial prints" and observations on pricing in general  
by Donald Slawson

The following item was prepared in late 1979, so may not be completely accurate in current terms

-----

In the past two issues I have discussed some of the "trial prints" connected with obliterated Nazi issues. I would like to say a few words about the pricing of this material.

The majority of trial prints are unpriced by Michel. Therefore, one must be careful about accepting the valuation of these items when they are offered in an auction. The "Ausruf prices" are apt to be very high. It is up to the bidder to determine what the material is worth to him and he should have some idea of what similar material is selling for. Let me give a few examples.

Concerning the Döbeln trial issues: The PI has a value fixed by Michel, and this stamp is relatively common, especially with missing or "matted" gum. It has historically sold at a fair discount from Michel, and although I notice that recent offerings are pushing the Michel price I also notice that it remains unsold frequently. The PII is also priced by Michel, so some basis for valuation exists. Now, what have other trials been fetching?

The unlisted "diamond grid" trials were offered by Zierer back in 1975-76 at roughly DM 1250.- (the 6 Pfg's), DM 1400.- (the 12 Pfg.), and DM 1900.- (the 30 Pfg.). The unlisted 19x14 grid with name and date was offered by Grobe at Ausruf DM 600.- in late 1978. It brought DM 1100.- in spite of the fact the stamp was torn. The "companion" to this item, with only 12 rows of diamonds (19x12) was sold by Ladewig in early 1979 at Ausruf DM 2000.-, fetching DM 2100.-.

Slightly later in 1979 the PII with name variety and the diagonal lines overprint (both of which were illustrated) were offered by Stanley Gibbons/Frankfurt at DM 4500.- and 4000.- respectively. These were unsold. I wrote giving the prices recently brought by similar items, suggesting a lower price might be in order. The auction people were very nice, but stated the owner would not lower the price. These stamps remained unsold. At times I'm kind of surprised that auctions waste their time on items for which outrageously high Ausruf's are desired, but on the other hand almost everything seems outrageously high today, so who knows what will or won't sell at a seemingly very high price?

Meanwhile, in early 1979, Pfankuch offered a 10Pfg. Holzhausen trial print. The Ausruf was DM 1750.- and evidently a couple of people were interested at this price, for this item brought DM 1900.-.

Still in early 1979 the two copies of the Netzschkau "rectangular dots" trial were offered. The first had an Ausruf of DM 1000.- and brought DM 1250.- (one increment over my DM 1200.- bid). The second was in the Stanley Gibbons auction with the high priced Döbeln material (evidently the same owner) and had a DM 3000.- Ausruf. Surprise! It sold at Ausruf. Thus within a couple of months two of these stamps were sold in open competitive bidding. One brought DM 1250.- while the other brought DM 3000.-. Interesting!

So what does all this prove? It seems to me several things. First, the price of something in "open competitive bidding" seems to be influenced by the Ausruf price, so often the bidding isn't as open and competitive as you'd think; it is often started at a very high level. In some cases the auctions are functioning more like a high-priced dealer's selling list than an auction. Second, the fact that something is offered doesn't necessarily mean it will sell. Even in today's high priced world it is possible to overprice material. Before bidding you should

stop to consider what something is worth to you, and what it might bring if you have to resell it. Don't automatically think you have to bid Ausruf.

Does this mean that the fellow who paid DM 3000.- for the Netzschkau trial "overpaid"? Not really. He may have trouble selling the stamp for what he has in it, but if he realized this when he bought it and he has an item which he wants for his collection and he is content to pay what it was worth to him, then nobody has any complaint. I'm sure that all of us "overpay" at times for items we especially want. As long as we realize what we're doing everybody is happy.

We can see from the prices I have followed that in late 1978-early 1979 the "going price" for Michel unpriced (or unlisted) trial prints seems to max out around DM 2000.-. Nothing will go for less than DM 1000.-, even if the Ausruf is "free". There seems to be no lack of interest in the material at this price. At DM 2000 things start getting tight; the competition gets reduced. Above this figure there is little competition at all. A few issues will go at DM 3000, but these usually go at Ausruf, evidently to a person who desires them and has the money to afford material at this price. The immediate resale of such items must be considered a rather "iffy" proposition if one wants to get back the money he paid for the item.

As a final note I'd like to point out that Michel can significantly alter the price of an item when they are not careful. The specific example I have seen involves the Netzschkau trail PI (3 Pfg Hitler with "bars" overprint) in vertical pair with a 3 Pfg grid overprint. Michel says 16 such pairs can exist, but as I pointed out in Vol 5 Nr 2 (Oct 1972) 32 pairs is a more realistic guess. In the 1977 Michel Spezial these pairs were unpriced. The going price was under DM 500 per pair at that time. In the Dec 1975 bulletin I illustrated a block of 8 containing 4 such pairs which had sold in October for DM 1100.- (which with the 13% surcharge was about DM 325 per pair). Early in 1977 a pair was offered at an Ausruf of DM 500 but was not sold, being sold after the auction for DM 450. The 1978 Michel placed a value on this item, and it was DM 1200!!! How in the heck they arrived at this figure I'll never know, but as usual it was a self-fulfilling prophecy. The next time I saw this item offered it was listed with the catalog value of DM 1200, and offered at DM 800, a "bargain" at only 2/3 Michel, but still nearly twice the "going price" before Michel placed a value on this item. This piece did not sell, but the owner would not reduce the price (why should he when Michel says it's "worth" DM 1200.-).

It seems at times that rather than the price of our material being influenced by "natural market factors" it is influenced by a "catalog value" assigned to it, sometimes in a seemingly arbitrary manner. I guess this is O.K. as long as someone believes the "catalog value" when we go to sell our material.

-----  
Update (Feb, 1981)

During 1979 and early 1980 an awfully lot of "trial prints" appeared on the market. In addition to items discussed above and in the last two issues I've also seen the Holzhausen 5 and 20 Pfg's, the Herrnhut "handstempel", several Finsterwalde Nr. 1's (including an invert) and several of the Glauchau trials. Much of this material was unsold. Evidently someone was breaking up a heck of a collection.

If anyone is keeping track, I've seen another of the Döbeln trials I listed as 14x19 grid/type 1 lettering. It was lot 1624 of the 177 Grobe auction. Can anyone furnish me the price this item brought?

\*\*\*\*\*  
HELP!! Item wanted: Can anyone give me (Slawson) a Glauchau Mi. #5 (15/5Pfg) with a "black dot" on it? Will trade a copy without the dot on it plus \$5 or some other item from my collection.

Sometime back, the German AM Study Group (Arbeitsgemeinschaft AM-POST), published in their bulletin "Der AM-POST SAMMLER"; a listing of towns with one or two post offices in the American Zone of Occupation that were open as of April 1947.

This listing provides a suitable tool for establishing the OPD whenever a cover cancellation does not show the OPD number (Postleitzahl).

I would like to thank the German Study Group for their permission to publish this town listing in our bulletin for the benefit of our members.

EDITORIAL COMMENT (A.M.G.)

It should be noted that the listing of post offices shown here, only includes the offices with the rank of "Postamt" and "Zweigpostamt". The offices with the rank of "Poststelle I" and "Poststelle II" are not included.

This information is verified by the "Ortsverzeichnis 1944".  
I would be pleased to discuss and know of any further information on these towns in the American Zone.

Joe Schirmer
